

MJBC Franchise F806

He is a homozygous black and homozygous polled. Franchise is a deep bodies purebred that has breed leading calving ease and solid milk EPD He has a moderate frame, big scrotal and an excellent disposition. But most importantly, he is a true outcross for most every Gelbvieh herd. We now have a picture to go along with this calving ease purebred. There will be many reports on progeny this spring The muscle, depth and calving ease should catch the aggressive breeder.

Elite Impact 4F

Elite impact has a balanced EPD Profile with excellent growth. These older genetics have been solid for years and continue to provide quality without sacrificing gain. Persons wanting to add extra pounds at weaning will love this bull. He produces length, depth and very thick calves that are docile and look good. This homozygous polled and homozygous black bull is the working type that will not disappoint. Good feet! He is NOT a heifer bull. Both sides of this pedigree are proven Gelbvieh genetics. Muscle, depth, volume and balanced EPDs make an attractive package for your cows.

DLGO American Outlaw F015

Phenomenal carcass merit, profile and awesome birth to growth stats. American Outlaw's pedigree features the popular sire New Frontier (deceased) and renowned Miss Fortune U490 cow family on the maternal side. He has leading EPDs for a PB bull in the Gelbvieh breed. He will not only produce long and deep calves but will increase EPDs in his offspring. This homozygous black and polled purebred will improve many EPDs. One of the best carcass sires available plus pounds gained at weaning and yearling. This purebred drives profit potential.

KHR Last Stand F02

Black Purebred

Last stand is producing moderate frame genetics in a complete package. He sires deep sided calves naturally thick, with moderate birth weights that hit the ground growing. A balance of EPDs that can work well in any direction. He is one of the deepest PB bulls in the breed. This 2018 homozygous black and polled PB will add depth, a maternal pedigree and the look we like in a beef program.

JLEA Tops Down

Red Purebred

Tops Down is a dark red calving ease bull that ranks in the top 1% of the breed for low birth weight. Also a phenotypic stand out admired for his depth of body, structural correctness, clean smooth joints and masculine features. Champion Gelbvieh Bull at the 2020 American Royal. Champion Gelbvieh Bull at the 2020 National Junior Show. Supreme Champion over all breeds at the Nebraska State Fair FFA Show. The red genetics of this quality are hard to find, i.e. calving ease, polled, gentle and phenotype. This red bull did not come too soon.

BARG Independence 21G

75% Red Balancer

BARG Independence 21G is one of the greatest sires that walks the pastures at Barwick Gelbvieh. Independence is as solid and thick as one can make a bull but yet does not sacrifice soundness and freedom of movement. He combines all the necessary pieces to be your next great AI sire; heavy muscled, bold ribbed, stunning eye appeal, great pedigree, and a perfect EPD profile. His maternal brother Mr. Eminence 21H has gained national attention and is certainly the sale highlight of the Barwick Gelbvieh Production Sale. Without a doubt Independence's dam is soon to hit the donor pen as the constant quality she produces year after year is extremely evident.

CTR Jackpot 8660F ET

Black Purebred

Lot #131 from the 2020 Maternal Empire Bull Sale sold for \$35,000.00. This is the best purebred bull in phenotype I have seen in my 50 years of raising Gelbvieh cattle. This bull is long bodied with a big butt, wide top and has good feet and legs to go with the excellent rib shape. The dam of 8660F was 17 years of age when flushed. The cow was a never miss in matings and creates lessor growth EPD's with her age. Cedar Top Ranch will use 200 units in 2020. Eldon Starr Cedar Top Ranch and Bull Barn Genetics. Many units used from this bull in 2020. Reports should be many in March 2021.

CTR Jackpot 8665F ET

Lot #136 from the 2020 Maternal Empire Bull Sale. This may be the very best bull we have ever produced. Yes he is a purebred and we have big plans to use this bull heavy this summer on angus cows to make incredible Balancers. Only problem is we can't decide between him and his flush brother lot 131, which one we like the best. Both bulls can move with any saddle horse in the country, I mean they can really walk out like herd bulls. Thick made and base wide, the kind that makes tremendous feeding steers. These 2 bulls will be easy to sell semen if you're into that but better yet they will leave a set of bulls, females or steers that all will envy. This bull will need another look.

TOG Twin Oak Armstrong 530D 80% Black Balancer

High carcass merit sire with strong beef bull phenotype, dominated his contemporaries both from a growth and ultrasound standpoint. His dam 7309T is a true 'Carcass Cow' with a stellar record as a donor. ARMSTRONG is impeccable from a foot and structure standpoint with added body and stoutness. Note that the pedigree of ARMSTRONG's dam 7309T has recently been changed by the American Gelbvieh Association. This makes 7309T a Balancer and changes ARMSTRONG's %Gelbvieh to PC75. DNA tested homozygous black, homozygous polled. This 75% Gelbvieh sire excels in carcass and tested homozygous black and polled.

Photo
not
Available

Black and Homo Polled. Maternal excellence would best describe this bull. Dam is the great 198L and sired by the female maker Answer 7304. Progeny exhibit moderate frame and added base width these cattle will fit lower input environments. Although not a heifer bull but 6809 will lower birth weights with excellent calving ease and make the right kind as well as any bull you can find to use. Add this bull to your program for top shelf females and bulls the commercial cowman desires. Not a heifer bull, but impressive progeny. Sales were big on this Balancer.
