Top selling bull in the 2008 Bluegrass Gelbvieh Invitational Sale. Maverick nursed a super, moderate framed, deep ribbed, highly productive 6- year-old dam. The first carcass plus CTR Highlight 066K son on the market with a very limited semen supply on 066K. Highlight 066K daughters really milk and with the combo of Maverick's performance plus dam, expect the Maverick daughters to be maternal plus.

### DLW Redemption

Polled

Red

Balancer 38%

Excellent red Balancer bull to use on heifers. His epd's rank him in the top 2% for CE and BW while still being in the top 25% for growth. He will moderate those big frame cows if you are looking to downsize some females. He is approximately a 5.5 – 6 frame bull with excellent testicular development. He produces moderate calves that exhibit a good amount of muscle expression. The heifer calf pictured here is an excellent representation of the first set of calves produced at Cranview Gelbvieh in 2016.

An exciting new 75% Gelbvieh bull "YJMR Iron Horse". Iron Horse, offers a lot of growth in a moderate package. Frame score of 6 and a scrotal measurement of 41 cm. We have used him primarily on our commercial herd and to clean up our registered cows in 2014. His calves came easy and get up and really go to work. He had two of his later born calves sale in the Pot of Gold sale and were our high selling sire group. A lot of interest in these bulls for their type and kind. His calves are born easy and really grow. Iron Horse was the reserve Grand Champion Balancer bull at the NILE show in Billings Montana in 2013. Homo black and Homo polled and also has a PAP score of 36

**DLW Avalanche 045A****Double Polled****Homo Black****Balancer 50%**

One of the big Stout, rugged bulls in the offering. Additionally he comes from a young cow that is making her own path as she sold a great full brother last year that was easily in the top 10 of our 2013 sale. Top 15% of the breed for growth and has the power to back it up. If you sell cattle by the pound then find this bull.  
 - Dan Warner

What a breeding opportunity this is. You stack this many great bloodlines into one package and something phenomenal is bound to happen. Gravity's sire, Sandhills the \$42,000 syndicated powerhouse, has taken the breed by storm and this is the first chance to have a piece. While standing on a big sound foot he combines a big top, deep rib in a high performing soft made attractive package. Gravity was bred to turn grass into pounds in a low input environment and boy has he done it, especially in drought conditions! He will surely impact the breed for years to come. He was the 2014 Bull Futurity champion.

--------------	-------------	-------	----------------

**MakeUp:** 55.469% GV | 43.75% AN | 0.781% XX

Homo Black and Homo Polled. Tenderloin brings more to the table than most any other bull on a numerical value. He is in the top 25% or higher on almost every measured trait. His CED is in the top 4% and has been successfully been calved to a limited number of heifers. They have outstanding growth and to top it off Tenderloin is one of the best carcass bulls available in A.I. The Tenderloin progeny really excel in phenotype with his first daughter shown winning her class at the National Western Stock Show. Use Tenderloin to improve phenotype and add genotypic values that will improve your herd for years to come.

Insidious was the National Champion Balancer in 2013 and 2014. He produced the 2015 Reserve National Champion Balancer bull. This will speak highly for the phenotype plus a top 2% in marbling. Insidious will add dollars to aggressive breeding programs in eye appeal and the quality of the hanging carcass.

 MISS SANDHILLS 5108R

Simply the Balancer bull that has taken the Gelbvieh/Banancer breed by storm since he sold for \$42,000 at the 2012 Cedar Top Ranch annual bull sale. Syndicated at the time with no semen sales until now. Sandhills progeny have performed at every level of the beef industry. Steers by Sandhills have topped Superior Livestock Market for 4 years in a row, due to their extreme consistency. Sons and daughters have topped seedstock production sales by all the owners with several selling for 10, 20 and 30 thousand. Commercial bull buyers demand the sons, they add pounds and produce elite female replacements.

### DLW Industry 301X

### Homo Polled

### Black

### Balancer 38%

Industry 301X covers all the bases in terms of modern day low input beef production. Carrying on the legacy of his sire Connealy Industry 5634 with progeny that excel within their contemporary group. Notorious for siring wide based big bodied cattle that will weigh. Backed by a cow power Industry's dam that has consistently had a top end calf every year and she will calve early again at the age of 10. Her true value lies in her fertility and she has never missed an AI mating. Look for Industry 301X to sire the attractive powerful sons and the profitable fertile females that will keep you in business for a lifetime.

### EGL Firework X130 ET

### Homo Polled

### Hetero Black

### Balancer 50%

Black and Homo Polled bull from one of the most impressive donor cows in the Gelbvieh breed. A balanced trait sire that brings extra growth, carcass, and tremendous replacement females. Firework will go down as one of the best female makers of all time. If you are needing to build a cow herd from the ground up Firework would be an excellent choice to start. Additionally Firework is a top bull for RFI so if you want efficient momma cows then this is the bull.

Older bull that was brought back after proving himself in a commercial herd. On season of use in registered herd resulted in all birth ratio's below 100 and all yearling ratio's over 100. The cattle are born smaller, have bone and grow especially well. In the commercial herd all the steer progeny by 2 year old heifers made it to the big sort of steers, defining their ability to excel even with a female that may not have as much milk. One could imagine what they would have done if used on cows. Use Front Page 114W to add performance in a low birth weight package. A bull that is what the beef business is all about. A must use sire in 2017!

### DLW Stout 695S ET

### Double Polled

### Black

### Balancer 50%

Stout is a bull that literally lived up to his name. He sires more muscle than most any other sire out there and that is proven by his incredible +1.13 REA EPD. His growth numbers are also in the front end of the breed. Also he is in the top 4% of the breed for preg 30 EPD, so if you want muscle and females that breed back raising a calf this is a must use sire. Fertility is the number 1 economic value to the profitability of any operation and here is a proven bull to get you those all important dollars.

Homo Black and Homo Polled. Simply the bull that sets all standards for creating females in the Balancer breed. 4743 has made more females that produce top selling progeny than any other bull in the history of Balancers. 4743 is the maternal grand sire of CTR Sandhills 0065X and many others in numerous herds. A low birth bull with superior growth but most importantly he fixes structure problems like no other. Some of the soundest moving free wheeling cattle are 4743 progeny, simply one bull that truly moves like a cat!

MakeUp: 50% GV | 50% AN

Transmits, muscling, capacity, fleshing ability at the highest level. Nicknamed "Muscle" for his powerful phenotype. Simply, the most powerful Gelbvieh and/or Balancer bull. Words are not sufficient to describe the cattle. "Muscle" will be around for years to come and a household name among commercial producers wanting Balancers. 0907K cattle excel like no other on IMF scans.

**HFCG Hart Efficient 125A41**      **Homo Polled**      **Red**      **Red PB**

HFCG Efficient, a red homo polled purebred with moderate frame. Sired by breed favorite JDPD Astro (deceased/No semen available) delivers the Real World characteristics demanded by todays cattlemen. His pedigree runs rich with the combination of HFCG Roscoe on the maternal side. He maintains excellent feet and leg structure delivering outstanding eye appeal. Red genetics with lower birth weight and performance in the top 25% for weaning and yearling. This red sire has a wide top with a long wide rump and muscle.

### JRI Top Dog 68T14

### Homo Polled

### Diluter Free

### Red PB

"CALVING EASE GENETICS-EXCEPTIONAL GROWTH-FEED EFFICIENCY" 74# BW/848# actual WW off first calf heifer. Awesome low birth to high growth spread. With Top Secret currently off the market, Top Dog could be the next "go to bull", as he is phenotypically similar. He is deep, wide, structurally correct, good moving, and moderate framed (5.9 frame score). This Top Secret son had a 5.64# ADG with a plus 3 marbling score. With current high feed prices, and a need for better performing, easier fleshing cattle, Top Dog is a must for the commercial cattleman.
