An exciting, young, purebred sire that is homo black and polled. His sire, Post Rock Silver 233U1 continues to gain popularity in the Gelbvieh breed and his dam is a daughter of the carcass leader Carolina Fortune. Rocksllyde is a very complete and well balanced bull who is heavy muscled and sound structured. He has a balanced trait EPD profile ranking well in the carcass trait.

Black PB**Homo Polled****Homo Black****JBOB 3303K ET "Junior"**

MakeUp: 100% GV

Top selling bull in the JBOB Farms '05 Complete Dispersal Sale. Junior's maternal pedigree features two of the all-time great homozygous black, homozygous polled females in the breed - Miss 92C and Miss August '84Y'. Miss 92C and Miss August '84Y' progeny commanded all the top dollars in the JBOB Dispersal. Proven pedigree, moderate frame, muscle, depth and superior phenotype.

XXB Drew 565K	Homo Polled	Homo Black	Black PB																																																					
	<p>This homozygous black, homozygous polled 2001 Breeder's Choice Futurity Champion Bull is proving to be one of the best calving ease sires in the breed. Drew's dam is truly one of the black polled power females in the breed with a 118 weaning weight ratio, 117 yearling weight ratio and excellent teat/udder quality. The acceptance for Drew progeny across the breed has been sensational and his sons perform fantastic on gain test.</p>

Polled

Red

Balancer 38%

Excellent red Balancer bull to use on heifers. His epd's rank him in the top 2% for CE and BW while still being in the top 25% for growth. He will moderate those big frame cows if you are looking to downsize some females. He is approximately a 5.5 – 6 frame bull with excellent testicular development. He produces moderate calves that exhibit a good amount of muscle expression. The heifer calf pictured here is an excellent representation of the first set of calves produced at Cranview Gelbvieh in 2016.

 MISS LIBERTY

An exciting new 75% Gelbvieh bull "YJMR Iron Horse". Iron Horse, offers a lot of growth in a moderate package. Frame score of 6 and a scrotal measurement of 41 cm. We have used him primarily on our commercial herd and to clean up our registered cows in 2014. His calves came easy and get up and really go to work. He had two of his later born calves sale in the Pot of Gold sale and were our high selling sire group. A lot of interest in these bulls for their type and kind. His calves are born easy and really grow. Iron Horse was the reserve Grand Champion Balancer bull at the NILE show in Billings Montana in 2013.

What a breeding opportunity this is. You stack this many great bloodlines into one package and something phenomenal is bound to happen. Gravity's sire, Sandhills the \$42,000 syndicated powerhouse, has taken the breed by storm and this is the first chance to have a piece. While standing on a big sound foot he combines a big top, deep rib in a high performing soft made attractive package. Gravity was bred to turn grass into pounds in a low input environment and boy has he done it, especially in drought conditions! He will surely impact the breed for years to come. He was the 2014 Bull Futurity champion.

Simply the Balancer bull that has taken the Gelbvieh/Banancer breed by storm since he sold for \$42,000 at the 2012 Cedar Top Ranch annual bull sale. Syndicated at the time with no semen sales until now. Sandhills progeny have performed at every level of the beef industry. Steers by Sandhills have topped Superior Livestock Market for 4 years in a row, due to their extreme consistency. Sons and daughters have topped seedstock production sales by all the owners with several selling for 10, 20 and 30 thousand. Commercial bull buyers demand the sons, they add pounds and produce elite female replacements.

 FLYING H EXTRA 150D
MS EXTRA 114L
 MS COLO CANON 949J

Older bull that was brought back after proving himself in a commercial herd. On season of use in registered herd resulted in all birth ratio's below 100 and all yearling ratio's over 100. The cattle are born smaller, have bone and grow especially well. In the commercial herd all the steer progeny by 2 year old heifers made it to the big sort of steers, defining their ability to excel even with a female that may not have as much milk. One could imagine what they would have done if used on cows. Use Front Page 114W to add performance in a low birth weight package. A bull that is what the beef business is all about. A must use sire in 2017!

Stout is a bull that literally lived up to his name. He sires more muscle than most any other sire out there and that is proven by his incredible +1.13 REA EPD. His growth numbers are also in the front end of the breed. Also he is in the top 4% of the breed for preg 30 EPD, so if you want muscle and females that breed back raising a calf this is a must use sire. Fertility is the number 1 economic value to the profitability of any operation and here is a proven bull to get you those all important dollars.

Homo Black and Homo Polled. Simply the bull that sets all standards for creating females in the Balancer breed. 4743 has made more females that produce top selling progeny than any other bull in the history of Balancers. 4743 is the maternal grand sire of CTR Sandhills 0065X and many others in numerous herds. A low birth bull with superior growth but most importantly he fixes structure problems like no other. Some of the soundest moving free wheeling cattle are 4743 progeny, simply one bull that truly moves like a cat!

3715 was the top bull in the 03 calf crop. A planned mating of one of the most proven cow lines in the Gelbvieh breed with almost perfect carcass and feedlot data. The sire is also the same on the Red Angus side of the equation with more data yet. Buy the sons with confidence if you sell cattle on a grid or you feed out your cattle in a feedlot. Considered a top sire for ERT's (Economic Relevant Traits).

CTR Traveler 0907K**Homo Polled****Homo Black****Balancer 50%**

Transmits, muscling, capacity, fleshing ability at the highest level. Nicknamed "Muscle" for his powerful phenotype. Simply, the most powerful Gelbvieh and/or Balancer bull. Words are not sufficient to describe the cattle. "Muscle" will be around for years to come and a household name among commercial producers wanting Balancers. 0907K cattle excel like no other on IMF scans.

In Pursuit was Judd Ranch's pick of the fall 2014 bull calf crop. In Pursuit weaned off his third calf dam, JRI Ms Jewels 017X10, at 975 pounds and she has been honored as a Dam of Merit female in every year of eligibility. This is one mighty powerful cow family and you can view In Pursuit's grandam, Ms Amber 017S9, photographed above. Her 3 sons to date have averaged 952 pounds at weaning time. Trace In Pursuit's maternal side and you will find six stacked generations of Dam of Merit females.

HFCG Efficient, a red homo polled purebred with moderate frame. Sired by breed favorite JDPD Astro (deceased/No semen available) delivers the Real World characteristics demanded by todays cattlemen. His pedigree runs rich with the combination of HFCG Roscoe on the maternal side. He maintains excellent feet and leg structure delivering outstanding eye appeal. Red genetics with lower birth weight and performance in the top 25% for weaning and yearling. This red sire has a wide top with a long wide rump and muscle.

Red PB	Homo Polled	Diluter Free	JRI Top Dog 68T14																																																																			
MakeUp: 100% GV		"CALVING EASE GENETICS-EXCEPTIONAL GROWTH-FEED EFFICIENCY" 74# BW/848# actual WW off first calf heifer. Awesome low birth to high growth spread. With Top Secret currently off the market, Top Dog could be the next "go to bull", as he is phenotypically similar. He is deep, wide, structurally correct, good moving, and moderate framed (5.9 frame score). This Top Secret son had a 5.64# ADG with a plus 3 marbling score. With current high feed prices, and a need for better performing, easier fleshing cattle, Top Dog is a must for the commercial cattleman.

RID R Collateral 2R **Homo Polled** **Diluter Free** **Red PB**

The breed leader for Tenderness through GeneSTAR testing. Collateral brings the complete package, including a rarity of 5 out of 6 Tenderness genes. Nursed awesome first calf heifer that flat knows how to spread low birth to robust growth. If you are looking for that sire to add the all-important Tenderness genes without sacrificing phenotype, muscle and structure - look no further. Homozygous polled by DNA testing.
